Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This action is responsive to the RCE and Amendment filed 11/17/2003, which has been entered. Claims 1-14 and 16 are currently pending.

Continued Examination Under 37 CFR 1.114

1. Receipt is acknowledged of a request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e) based on parent Application No. 09/976,002 is acceptable and a RCE has been established. An action on the RCE follows.

Drawings

2. The draftsman and examiner have accepted the drawing 11/17/2003 as formal drawing.

Specification

3. The disclosure is objected to because of the following informalities: In newly amended paragraph 20, line 20, reference numeral "3252" refers to the surface and in line 19 it refers to the to edge. It appears that in line 20, "3252" should be --325--.

In newly amended paragraph 23, line 13, "volley" should be --valley-- before "327".

The phrase "cutting portion" is unclear and confusing because the specification does not define the meaning of cutting portion 328 and it is not clear as to why item 328 is being referred to as a cutting portion".

Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-14 and rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. Claim 1 contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. In claim 1, the phrase "cutting portion" is unclear because the specification does not describe how the function of the particular portion is associated with cutting. It is not enabling for one of ordinary skill in the art to associate a cutting portion on a sprocket without knowing or understanding the cutting function of the cutting portion.

7. Claims 1-14 and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 9, the phrase "cutting portion" is unclear and confusing because it is not clear as to the cutting function of the cutting portion.

In claims 13 and 14, the phrased "is a shortened tooth" is confusing because it is not clear if the first and second characteristic are shorter than the other teeth.
